SUMMARY

Fourth-year B.Tech CSE student at Christ College of Engineering with interests in Artificial Intelligence, Machine Learning, and Web Development. Strong foundation in Python, Machine Learning concepts, and Frontend Development using HTML, CSS, JavaScript, and React, along with experience working with MySQL and MongoDB. Hackathon winner with proven teamwork and project development skills.

EXPERIENCE

Tata - GenAI Powered Data Analytics Job Simulation Micro Internship (Jun 2026)

- Conducted Exploratory Data Analysis (EDA) and customer risk profiling to identify key business insights.
- Prepared a business report and developed an AI-driven collections strategy based on the analysis.

PROJECTS

WildGuard: Hybrid Deep Learning Animal Detection & Deterrent System (Jan-Apr 2026)

- A hybrid model combining DenseNet-201 & ResNet-50 architectures for animal detection and deterrence.
- Integrated real-time monitoring & alert systems using Firebase services for improved service through a PWA.

Quick-Care AI Caregiver Workload Optimisation Engine (Mar 2026)

- AI-powered caregiver workload optimisation platform using the React frontend and Node.js backend.
- Integrated Groq API, Llama 3 & AI models to improve healthcare task management & response efficiency.

Disaster Resource Co-ordination System (Aug-Oct 2025)

- A Platform using React, Node.js, & MySQL for efficient resource coordination during emergencies.
- Enabled real-time tracking and allocation of disaster relief resources through a centralized system.

Blood Donation Management System (Jan-Feb 2025)

- A web-based system using HTML, Node.js, and MySQL to manage donor registration and stock levels.
- Streamlined donor-to-request matching, reducing manual coordination effort for blood banks.

EDUCATION

B.Tech, Computer Science & Engineering – Christ College of Engineering, Irinjalakuda (2023-27)

- CGPA: 8.82/10 (up to S6), BeachHack Decoration Team Member & College Chess Competition Champion.

12th Kerala State Board Computer Science Stream – Carmel H.S.S, Chalakudy (2021-23)

- 97.67%. 2nd Prize - Web Designing Competition Chalakudy Sub-District Level.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript; **Web Technologies:** HTML, CSS, React, Node.js; **Databases:** MySQL, MongoDB; **Tools & Platforms:** GitHub, VS Code, Antigravity, Firebase, Groq, Eclipse IDE, Postman; **Microsoft Office Tools:** Excel, Word, PowerPoint.

ENGAGEMENTS & ACHIEVEMENTS

- 1st Prize in Software Track of AstraX 42-hour Hackathon - RSET, Kakkanad (March 2026).
- Volunteer for FIFA Tournament (Techletic 4.0) & Python Debugging Competition Pre-event (Beach Hack 7).
- Developed a School Election App for St. Don Bosco Girls' High School, Kodakara (August 2025).
- Participated in Relay Coding 2025 by FOSS CCE & CodeFix 2025 by CODE CCE.

CERTIFICATIONS

1. IBM Certification on Introduction to Deep Learning & Neural Networks with Keras.
2. Infosys Springboard Certification on Introduction to Artificial Intelligence, Data Science, Deep Learning, Natural Language Processing, Robotic Process Automation, and Computer Vision.
3. NPTEL Online Certifications: Machine Learning for Engineering and Science Applications, Database Management System.
4. MATLAB Certification on Calculation with Vectors & Matrices, Deep Learning Onramp.
